Everything you wanted to know about vibration isolation but were afraid to ask!

Kellett Enterprises, Inc is privileged to announce that we have been granted the right to present an abstract at this year's 81st annual Shock & Vibration Symposium in Orlando, FL. This event runs from October 24th thru the 28th. Kellett's abstract is entitled "Vibration Isolation and Noise of Roof Top Heat Pumps Using Kellett's LP-13 Shake Absorber Pad".

The Shock & Vibration Information Analysis Center is a jointly-funded activity sponsored by the Army, Navy, Air Force, DTRA, and the DOE laboratories. The mission of the group is to serve as a central information resource for Government activities, contractors, and academics concerned with structural dynamics design, analysis, and testing; and shock physics and weapons effects. It encompasses ships, aircraft, spacecraft, ground vehicles, ground structures, machinery and humans; any area where Government engineers have a responsibility for the design, analysis or testing of mechanical or structural systems.

SAVIAC is operated by HI-TEST Laboratories, Inc. in Arvonnia, VA, under contract to the US Army Engineer Research and Development Center. The SAVIAC team consists of some of the top names in Shock & Vibration from the SAVIAC community. Technical direction is provided by the SAVIAC Director who is advised by a multi-agency Technical Advisory Group consisting of members from DOD, NASA, DOE, and commercial organizations.

If you are attending this year's event, stop by our booth and meet the Kellett Team. Let us share how we have solved problems in these industries and more.....

Transformers	Generators	HVAC
Pumps	Lab Equipment	Exhaust Fans
Server Racks	Rock Crushers	Weight Scales
CNC Machines	Weaving Looms	Air Compressors
Grain Elevators	Satellite Mounts	Load Bearing Supports

For more information about sound, shock and vibration isolation control, visit the Kellett website at www.kellettent.com. To learn more about SAVIAC, visit www.saviac.org.

Kellett Enterprises, Inc is located in beautiful Greenville, SC and has facilities with over 11,000 sq feet of manufacturing, warehousing and office space. Kellett is a certified woman owned corporation.
